The beauty of urban agriculture

TOP NEWS OF THE PROJECT SO FAR

OUR COMMITMENT TO QUALITY LEARNING

>>> TRAINING PACK FOR YOUTH

Our desire to provide qualitative learning tools has materialized into a 110 pages Training Pack for Empowering Urban Youth. Containing 6 topics revolving around urban agriculture, activities and exercises for a fast and efficient learning, the finalized Training Pack is also available in 7 languages and free to access by anybody who is interested!

DIGITAL LEARNING PLATFORM <<<

As we know the importance of digitalized content in today's era, we compiled all information, research and results into an interactive and easy to use learning platform. The main functionalities are: a forum where people can post questions and other topics of discussion and communicate with likeminded individuals; a best practices map for finding inspiring initiatives; a course on urban agriculture based on the Training Pack developed previously. All content is available in 7 languages only be registering into our platform for free!

THE DIGITAL DOMAIN OF URBAN AGRICULTURE

MORE TOOLS FOR INVOLVING YOUTH IN URBAN AGRICULTURE

>>> VIDEO TUTORIALS FROM AGRICULTURE EXPERTS

In the past few months we collaborated with 18 agriculture experts from 6 countries to develop video tutorials on how to grow 18 specific plants and herbs. From cherry tomatoes to parsley, we identified some of the most popular plants of each country involved in our project and provided step-by-step guidance in a few minutes video tutorials available on YouTube! Translations are also available in 6 languages, to support youth who would like to try and plant their own vegetables on a balcony, an urban garden or even in a small pot in their own kitchen!

>>> WHAT IS NEXT?

We are currently preparing a Training Programme to involve young people from urban areas into urban agriculture activities. We aim to boost the interest of youth into this sector by providing special activities that will engage them more into our topic. The next activities are:

1. A Training of Trainers that will take place in Zagreb, Croatia;
2. A Campaign to promote our topic and activities;
3. Farmers in the City indoor and outdoor workshops;
4. A Transnational Blended Mobility for youth in Portugal.

Keep an eye on us for the next activities!
