STAY UP TO DATE WITH OUR LATEST RESULTS BY CHECKING OUR WEBSITE!

We just launched our project's website! There you will find all of the project's results and our work from the beginning of our journey. At the moment, you can contact us, find the video interviews and check all of the partners. Later you, you will have the possibility to download all the materials which we will create for free!

Every other month, our consortium meets up to decide the next steps of our project and how to approach the activities which we planned for this project. So far, we have met 4 times to discuss, give each other feedback and establish our journey's path together.

After every meeting, we are informing our communities about our progress and what has been discussed. Thus, if you are interested to learn more about our project and also the organizations who are working on it, check our social media channels for staying informed! If you have any questions, we will be more than happy to answer you!
